Tri-Level Horizontal Bar

Product # HBAR3

Actual equipment may look different than shown due to frequent design upgrades. This equipment is designed for individuals weighing up to 330 lbs.

Dimensions:

140" L x 8" W x 90" H when bars are positioned in a straight line.

Bar Heights: 5' x 6' x 7'

Color:

Green & Almond

Weight:

110 lbs

Assembly:

Required (assembly hardware provided)

Warranty:

Limited 5 year warranty on steel posts, welds, bars, and metal accessories. Limited 2 year warranty on bearings, clamps, and rubber parts.

Product Specification:

TriActive USA's MBAR assumes three cross bars (3, 4, and 5 feet off ground on center) and four upright posts utilizing a slip fit tube that's welded inside the cross bars and drilling holes for 3/8" bolts to secure the cross bars in place. The part will have seven parts in total - 4 uprights and 3 cross bars. TriActive USA Fitness Equipment does not include any of the following: exposed cables, hydraulics or plastic seating.

Powder Coating Specification:

Powder coating thickness 6-8 mils. Coatings are tested for 1000 hours of salt spray resistance. Pre-treated, iron phosphate applied, zinc powder applied, functional powder applied, and final TGIC powder coat is applied to provide outstanding weathering capabilities.
